

Reference

Product: **Nanotol Household Cleaner and Protector**

Location: Münster-Hiltrup, Germany

Object: Shop window at T-Punkt

The window was thoroughly precleaned with Nanotol Cleaner. Nanotol Protector was applied evenly with a spraying system and the dried surface was polished with Nanotol microfiber cloths by means of a telescopic arm.

Stefan Thöben, store manager at T-Punkt, Münster-Hiltrup branch

„Our windows were cleaned twice a month previously. After using Nanotol, we found that our windows have never been clean for such a long time. Minor contamination or pollen was easy to remove with a dry cloth. It's fast cleaning and we don't need any detergents anymore and have a constant clean window appearance – perfect.“
